

ADVANTAGE FEEDERS AND REID STOCKFEEDS PRESENTS:

GROWING BETTER REPLACEMENTS

ON-FARM WORKSHOPS

RUMENATE LIVESTOCK SERVICES - Jess Revell

- The impact inadequate nutrition has on heifer development
- Meeting target heifer weights at strategic times after weaning
- Topics of pelvis size, puberty, conception rates and lifetime milk production

ADVANTAGE FEEDERS

- Using the 3-way Restriction System to control intake to small rations
- Feeding little and often for rumen efficiency by preventing an acidic rumen pH
- The release of the new M1000HD mobile feeder designed for dairy farms

REID STOCKFEEDS

- Inducting dairy calves to grain & daily intake required to meet nutritional goals
- Utilising true protein sources & the impact on crude protein intake for heifers
- Dietary mineral requirements of healthy growing dairy heifers
